Class 2	90.0%
Class 3	89.26%
Class 4	98.46%

Welsh and Makaton phrase of the week:

Internet Safety

Over the passing week, staff have been asked for our opinion on whether their child should access 'Fortnite'. We thought we should share the following information with all parents/carers, Fortnite is a free multiplayer survival action game. It has been given a **PEGI 12** rating for frequent scenes of violence of a more graphic nature between human-like characters.

Children can also watch videos on YouTube of other children and adults playing the game; these videos may not be appropriate and are uncensored. It is recommended that if your child is watching videos on YouTube, they use YouTube Kids.

Further information about keeping your child safe can be found on HWB, and further information about 'Fortnite' can be found here: [Fortnite - Hwb \(gov.wales\)](#)
